Sale Information

1. OUTSIDE AGENT REBATE
A rebate commission of 3% will be payable to outside agents who introduce prospective clients in person and in writing at the time of buyer registration prior to the Sale, attend the sale and settle on behalf of their clients within seven (7) working days of receipt of invoice.

2. SOCIETY REGISTRATION
All cattle entered in this sale are registered with the Red Angus Society of Australia. Vendors will transfer to purchasers, please indicate your Red Angus Society ident on the Buyers Instruction Sheet. Transfer fees will be the responsibility of the Vendor in accordance with the Red Angus Society of Australia Regulations.

3. HEALTH
Goonoo, GK, Goondoola and Yallambie are J-BAS Score 7. Intending purchasers should make their own investigation for entry of cattle from this sale into their locality.

All animals are tested Pestivirus Negative with written confirmation supporting this.

4. DELIVERY AND TRANSPORT
Delivery will be from each vendors property. Please talk to vendors for frieght coordination.

5. CONDITIONS OF SALE FOR INTERSTATE PURCHASE
a. Any animal, purchased for interstate movement, which requires further tests will be forwarded to an approved Quarantine area where appropriate tests will be carried out in compliance with the entry requirements into the destination state. The costs of agistment, transport and health tests are to be borne by the Purchaser of all cattle passing such tests, or by the Vendor should they fail to pass such tests. Payment for cattle to the Vendor will be made within the normal terms of sale whether or not the cattle have been tested for entry into the nominated state.
b. In the event of the cattle failing health tests and sale being cancelled, the Vendor will refund all monies, paid as settlement, for the Purchaser.

6. FERTILITY GUARANTEE
All female animals are to be sold as guaranteed breeders. Where a Purchaser submits a Veterinary Certificate to a Vendor within twelve (12) months of the date of sale stating that a female of joinable age is infertile, and in the Veterinary Surgeon's opinion, she has not suffered since the delivery to the Purchaser, any injury or maltreatment which could have affected its breeding ability, the Vendor is liable to refund the purchase price of the animal in full. This will not apply where an attempt has been made to transfer embryos from the female.

7. SALE INSPECTION
All vendors welcome inspection on farm prior to the sale by appointment. Inspection of live lots commence TRLX Tamworth (Phoenix Street Westdale NSW) from 12pm Wednesday 18th May.

8. SALE CATALOGUE DISCLAIMER
All reasonable care has been taken by the vendors to ensure that the information provided in this catalogue is correct at the time of publication. However, neither the vendors or the selling agents make no other representations about the accuracy, reliability or completeness of any information provided in this catalogue and do not assume any responsibility for the use or interpretation of the information included in this catalogue. You are encouraged to seek independent verification of any information contained in this catalogue before relying on such information.

YALLAMBEE RED ANGUS

Yallambee Red Angus (YRA) is a progressive new stud in the picturesque Highlands, backing on to the Balanglo State Forest.

Yallambee Angus started in the seed stock industry 7 years ago, after purchasing the Wollumbi Red Angus herd. Since then, we have expanded to run both Black and Red Angus, purchasing our first Black cows from the Anvil dispersal, then Landfall, Dunoon, Bowen Peakes and Premier Angus. Last year we purchased the majority of the Baynes Angus herd from Simon Baynes in South Australia. We also purchased the red gene carrier Millwillah Blackout NJWQ822 for $100,000 Our focus remains on calving ease, structure and fertility with balanced data.

In the past few years our Red program has seen the introduction of our Red Reflection Sale held in Tamworth with Goonoo and Goondoola Red Angus, and also the invitational Bull sale that incorporated our Talimba bull feedlot trail, where we topped the Sale with the first of our Northline Revival sons for $20,000, sold to Goondola and JP Red Angus.

Our Black program also saw success at the Sydney Royal, taking out Reserve Junior Champion and topping the Angus Bull sale at $13,000 Join us at the open day to see:
• Our Red and Black yearling bulls that will be for sale, which include sons from Northline Revival and CSRL Goldmaster for the red program, and LD Capitalist and Millah Marrah Paratrooper NMMP15 for the Blacks

This year unfortunately due to copious amounts of rain we weren't able to put together any live lots for the red reflections but will give you the opportunity to purchase some of our world class Genitics, with See you at 180 Belanglo Road Belanglo (Belanglo Road is 6km's North of the Illawarra Highway, on the Hume Highway).

GOONOO RED ANGUS

Twelve years ago we calved out our first Goonoo Red Angus calf. Over a decade on, we can reflect back on the satisfaction of developing a herd that offers predictability, performance and pedigree strength to the Red Angus breed. Although we are relatively newcomers to the Red Angus breed our family has an extensive association with the cattle industry.

The Goonoo Creek Simmental stud achieved considerable success at major industry events and a loyal clientele. Our Simmental dispersal will be remembered as one of the strongest Simmental herd dispersals with lots selling Australia wide at outstanding prices.

The Jordan family was and continues to be involved in the dairy industry although now as a genetic supplier through Peel Valley Genetics. This dairy association forms a strong component of our breeding philosophy on the value of proven female families and maternal attributes.

Extensive research identified the high performance maternal families that we based our herd on. Legendary families such as the GK Dina, Trevone Park Kite and Snoopy, RRA Imp, BST Tullatoola Dutchess and Kansas Goldmine to name a few.

GOONOO RED Magnolia (GSJM16)
Sire: K5X Jackpot J20
Top price Inaugural Red Reflections Sale $20,000

These females have formed a solid foundation for our future development. To ensure we continue to offer industry leading genetics to the Red Angus breed we have recently purchased a half share in an outstanding Canadian female Red Redrich Lexie 133E.

These maternal lines have been individually matched to the best sire lines available. We have invested in securing outcross North American sires such as Red Northline Chuck Norris 305X as well as recognised outstanding local genetics such as walking sire K5X Jackpot J20.

Breed leaders such as Red Fine Line Mulberry 26P are selected to complement our program and animals such as Goonoo Jose Carreras, the grand champion bull at the 2016 Sydney Red Angus Feature show are testament to this.

We use the showring as a promotion window to our program and have achieved tremendous success including Brisbane, Adelaide and Sydney champions as well as at the National Show and Sale. However the driving focus of the Goonoo breeding philosophy will always be the production of Red Angus genetics to enhance and develop profitability for breeders that invest in our breeding program.

We have confidence in the genetics that bear the Goonoo "brand". We are equally as proud of a commercial producer increasing his financial return with progeny of a Goonoo sire as we are winning a Royal show. With a long family involvement in agriculture and the next generation showing interest we are committed to the long haul. We look forward to seeing you at this special sale and if you have any questions please do not hesitate to contact us.

The Program with Predictability

GOONOO 26P JOSE CARRERAS (GSJJ26) Sire: Red Fine Line Mulberry 26P
Senior & Grand Champion Bull - Sydney Royal Feature Show 2016

GOONOO CHUCK KENNY (GSJK14) Sire: Red Northline Chuck Norris 305X
Senior & Grand Champion Bull - Adelaide Royal 2016

GOONOO 26P IMPISH K33 (GSJK33)
Sire: Red Fine Line Mulberry 26P
Junior Champion Heifer - Sydney Royal Feature Show 2016

GOONOO RED FULL CASSIE (GSJE04)
Senior & Grand Champion Female National Show & Sale 2015

> "The question isn't who is going to let me, it's who is going to stop me?"
> Ayn Rand

Goonoo are proud of the achievements of the youth that have worked with our team over the years.

GK LIVESTOCK
RED ANGUS & SIMMENTAL

GK Livestock is a family business based near Dalby on Queensland's Darling Downs and is run by Kirrily assisted by her children Jake and Brooke.

Our Red Angus herd is a limited number, high quality cow herd that has consistently bred and produced sale toppers and show winners over the past 20 + years.

Wow! If someone had rewound the tape back to the start of 2020 and told us of the events that were about to unfold, I certainly wouldn't have believed them. One of the worst droughts in history broke in January 2020 (for us) but was quickly followed by a worldwide pandemic. Throw in several local flood events in as many months along with one mother of a crazy supercell tornado later and our home block at Dalby had been left totally battered by March 2022.

Unfortunately, due to these extreme weather events we were unable to access or prepare our live female lots that we had wanted to include in this special sale. On the upside the Australian Beef Industry is on an absolute high and our passion for the Red Angus breed is still strong, so we are proudly offering some very neat, newest generation, outcross and legendary older genetics, in embryo and semen package form.

Brooke, Jake and I would like to thank Graham and Sandra and the entire Jordan family for inviting us again to be apart of the Red Reflections Sale and invite fellow breeders and Red Angus enthusiasts to join us either in person or online for this special event on May the 18th.

Kirrily Johnson Iseppi, Jake & Brooke Iseppi
"Leafmore"
650 Dalby-Cecil Plains Road
Dalby Queensland 4405

GOONDOOLA RED ANGUS

Goondoola Livestock is a family run operation owned by Paul and Sue Powe along with their daughters Hannah and Nicole and her family. Since it was established in the early 1980s, breeding solely Murray Grey cattle, Goondoola diversified into Red Angus in 2009 and hasn't looked back since.

Goondoola purchased their first Red Angus female, RRA Miss Rumba D2, out of the Sydney Royal All Breeds Sale from RRA Red Angus. Two more females, BST Tullatoola Robin's Doll C104 and BST Tullatoola Gold C13, were purchased privately from BST Tullatoola. At the time we thought these females were special but never thought they would have the huge impact they have had on our breeding program producing numerous champions across the country, including several interbreed winners.

Over the years we have sourced outcross genetics from North America to introduce to our breeding program which included donor females Red JCC Roxie 20S and Red Blair's Monique 175A, followed by the Australian semen rights in elite Red Angus sire KJHT Power Take Off (PTO).

Our investment in quality continued with the recent purchase of the $20,000 top-priced bull, Yallambee Revival Q56, from the inaugural Invitational 2021 Red Angus Bull Sale in partnership with JP Red Angus.

Recent highlights include being awarded most successful Red Angus exhibitor from 2017-2019 & 2022, as well as exhibiting the best Red Angus exhibit in 2016, 2018, 2019 and 2022 at the Sydney Royal Show. This year we had a clean sweep in the junior division and won both grand champions.

Our genetics continue to perform for studs, but also for our commercial clients across the country with people returning for true to type, consistent and good temperament animals.

With small numbers, we aim to produce a quality line up of cattle year in, year out with capacity, performance, and longevity, while ensuring our cattle are moderate, easy doing and perform well within both the paddock and the show ring.

BREEDPLAN

Red Angus GROUP BREEDPLAN EBVs cannot be validly compared to the GROUP BREEDPLAN EBVs for other breeds (including Angus). Only GROUP BREEDPLAN EBVs with Accuracy (Acc) from the same analysis (eg. Red Angus) can be validly compared.

Estimated Breeding Values (EBVs)
An Estimated Breeding Value EBV is an estimate of the genetic value of that particular animal for each trait measured.

Accuracy
An accuracy is presented with every EBV and gives an indication of the amount of information that has been used in the calculation of that EBV. The higher the accuracy the lower the likelihood of change in the animal's EBV as more information is analysed for that animal or it's relatives. Accuracy below 75% should be considered low.

TRAITS
Calving Ease EBVs (%) are based on calving difficulty scores, birth weights and gestation length information. More positive EBVs are favourable and indicate easier calving.

CE % Dir = Direct Calving Ease - The EBV for direct calving ease indicates the influence of the sire on calving ease in purebred females calving at two years of age.

CE % Daughters = Daughters' Calving Ease - The EBV for daughters' calving ease indicates how easily that sire's daughters will calve at two years of age.

Gestation Length EBV (days) is an estimate of the time from conception to the birth of the calf and is based on Artificial Insemination & hand mating records. Lower (negative) Gestation Length EBVs indicate shorter gestation length & therefore easier calving & increased growth after birth.

Birth Weight EBV (kg) is based on the measured birth weight of progeny, adjusted for dam age. The lower the value the lighter the calf at birth and the lower the likelihood of a difficult birth. This is particularly important when selecting sires for use over heifers.

200-Day Growth EBV (kg) is calculated from the weight of progeny taken between 80 and 300 days of age. Values are adjusted to 200 days and for age of dam. This EBV is the best single estimate of an animal's genetic merit for growth to early ages.

400-Day Weight EBV (kg) is calculated from the weight of progeny taken between 301 and 500 days of age, adjusted to 400 days and for age of dam. This EBV is the best single estimate of an animal's genetic merit for yearling weight.

600-Day Weight EBV (kg) is calculated from the weight of progeny taken between 501 and 900 days of age, adjusted to 600 days and for age of dam. This EBV is the best single estimate of an animal's genetic merit for growth beyond yearling age.

Mature Cow Weight EBV (kg) is based on the cow weight when the calf is weighed for weaning, adjusted to 5 years of age. This EBV is an estimate of the genetic difference in cow weight at 5 years of age and is an indicator of growth at later ages and potential feed maintenance requirements of the females in the breeding herd. Steer breeders wishing to grow animals out to a larger weight may also use the Mature Cow Weight EBV.

Milk EBV (kg) is an estimate of an animal's milking ability. For sires, this EBV indicates the effect of the daughter's milking ability, inherited from the sire, on the 200-day weights of her calves. For dams, it indicates her milking ability.

Scrotal Size EBV (cm) is calculated from the circumference of the scrotum taken between 300 and 700 days of age and adjusted to 400 days of age. This EBV is an estimate of an animal's genetic merit for scrotal size. There is also a small negative correlation with age of puberty in female progeny and therefore selection for increased scrotal size will result in reduced age at calving of female progeny.

Eye Muscle Area EBV (sq cm) is calculated from measurements from live animal ultrasound scans and from abattoir carcase data, adjusted to a standard 300 kg carcase. This EBV estimates genetic differences in eye muscle area at the 12/13th rib site of a 300 kg dressed carcase. More positive EBVs indicate better muscling on animals. Sires with relatively higher Eye Muscle Area EBVs are expected to produce better muscled and higher percentage yielding progeny at the same carcase weight than will sires with lower Eye Muscle Area EBVs.

Rib Fat and Rump Fat EBVs (mm) are calculated from measurements of subcutaneous fat depth at the 12/13 rib site and the P8 rump site (from live animal ultrasound scans and from abattoir carcases) and are adjusted to a standard 300 kg carcase. These EBVs are indicators of the genetic differences in fat distribution on a standard 300 kg carcase. Sires with low, or negative, fat EBVs are expected to produce leaner progeny at any particular carcase weight than will sires with higher EBVs.

Red Angus Breed Average EBVs for 2020 Born Calves

	CE DIR	CE DTR	GL	BW	200	400	600	MAT	MILK	SS	CW	EMA	RIB	RUMP	RBY	IMF	$ INDEX VALUES		
EBV	-1.1	-0.5	-1.1	+2.9	+29	+44	+57	+57	+11	+0.9	+36	+1.6	-0.1	-0.3	+0.7	+0.2	SUP	VLR	NSI
Acc																	*+$40*	*+$39*	*+$44*

Retail Beef Yield EBV (%) indicates genetic differences between animals for retail yield percentage in a standard 300 kg carcase. Sires with larger EBVs are expected to produce progeny with higher yielding carcases.

Intramuscular Fat EBV (%) is an estimate of the genetic difference in the percentage of intramuscular fat (marbling) at the 12/13th rib site in a 300 kg carcase. Depending on market targets, larger more positive values are generally more favourable.

Australian Red Angus Selection Indexes

There are currently three different selection indexes calculated by the Red Angus Society of Australia. These are:

Supermarket Index (SUP)
Vealer Index (VLR)
Northern Steer Index (NTH)

Each selection index describes a different production/market scenario and relates to a typical commercial herd in Australia that is targeting the following specifications.

Supermarket Index (SUP) - Estimates the genetic differences between animals in net profitability per cow joined for an example commercial herd targeting the domestic supermarket trade. Steers are either finished on grass or grain (e.g. 70 days). Steers are marketed at 450 kg live weight (250 kg HSCW and 12 mm P8 fat depth) at 15 months of age. Daughters are retained for breeding. In response to industry feedback regarding eating quality and tenderness, a small premium has been placed on marbling.

Vealer Index (VLR) - Estimates the genetic differences between animals in net profitability per cow joined for an example commercial herd targeting vealer production. Vealers are finished on grass and are marketed at 320 kg live weight (180 kg HSCW and 4 mm P8 fat depth) at 9 months of age. Daughters are retained for breeding. No marbling is required.

Northern Steer Index (NTH) - Estimates the genetic differences between animals in net profitability per cow joined for an example commercial herd in Northern Australia with Bos Indicus cows targeting grass finished steers for export. Steers are marketed at 600 kg live weight (330 kg HSCW and 10 mm P8 fat depth) at 27 months of age. Daughters are retained for breeding. In response to industry feedback regarding eating quality and tenderness, a small premium has been placed on marbling.

All selection indexes are reported as an EBV, in units of relative earning capacity ($) for a given production/market scenario. They reflect both the short term profit generated by a sire through the sale of his progeny, and the longer term profit generated by his daughters in a self replacing cow herd

GROUP BREEDPLAN
RED ANGUS

Female Lots

1 GOONOO
Red Quigley

Born: 01/10/2019 Herd Ident: GSJQ16

RED LAZY MC TROOPER 21Y (AMF) (MAF) (NHF) (OSF)
Sire: GK RED 21 MARSHALL M20 (AI) (ET) GK M20
GK RED RUBA 26 G40 (AI) (ET) (AMF) (MAF) (NHF) (OSF)
ROCKRIDGE LOOKOUT F5 (AI)
Dam: GOONOO RED LASER (TWIN) GSJL24
CHAN ABBEY HEIDI H57

Comments: Beautifully bred young heifer that should calve before sale to our stud sire GK Red 624 QuickDraw. Q3 Departured 6/7/21. Quick Draw is the Red Cockburn Assassin son of GK Red 23 Cherok J 28, a cow family that I have emmense time for. Quigley has a classy pedigree including, Trooper, Mulberry, Aprroval and Sakic, followed by the great Ruba G40 and the Goldmine family from Rockridge. This young heifer is well grown, and will suit any stud enterprise. Q16 is sire verified.

6 GOONOO

Red Rainbow

Born: 07/09/2020 Herd Ident: GSJR14

RED TER-RON PARKER 34A (AMF) (MAF) (NHF) (OSF)
Sire: JINDELLISTON PARK NERO N12 (AI) NECN12
JINDELLISTON PARK TRIX F4
BST TULLATOOLA FULLY LOADED E16 (AI)
Dam: GOONOO E16 CHERRY K6 GSJK06
DONNA-LYNN RED CHERRY

Comments: R14 is smart, with plenty a cow power on the maternal side. Diamond Mist, Trix, Alica and the Cherrys from IBR. Rainbow was depastured with QuickDraw from 13/12/21 to 30/3/22 and will carry a positive PTIC to that mating. Rainbow R 14 is certainley worth consideration. R14 is sire verified.

Purchaser:.....Price $:.....

7 GOONOO

Red River

Born: 11/10/2020 Herd Ident: GSJR20

RED TER-RON PARKER 34A (AMF) (MAF) (NHF) (OSF)
Sire: JINDELLISTON PARK NERO N12 (AI) NECN12
JINDELLISTON PARK TRIX F4
5L NORSEMAN KING 2291 (AMF) (MAF) (NHF) (OSF)
Dam: ROCKRIDGE NORSEMAN BLOSSUM F40 (AI) MAXF40
RRA BLOOM (AI) (MAF)

Purchaser:.....Price $:.....

Comments: Here is a good heifer, with depth of breeding from the now dispersed Rockridge herd. River R20 contains the cow families of the Blooms, and Trixs from Mt Hunter very correct young heifer that will enhance any herd. Depastured with QuickDraw on 13/12/21 to 30/3/22 and will carry a positive PTIC to that joining. R20 is sire verified.

RED TER-RON DIAMOND MIST 290P (AMF) (MAF) (NHF) CANF1225408

Comments: 4 x A Grade embryos between the mating of GK Red Diamond Mist M16 and Red Wheel Stark 67G. Offering a three frozen embryo package out of the 2019 Brisbane Grand Champion GK Red Diamond Mist M16. "Misty" is from the famed Canadian Diamond Mist cow family and is currently the only female progeny from this family registered Australia. Misty is a very functional female and what many would class as a picture perfect Red Angus cow. The first two packages are by GK's new outcross, Canadian Sire, Red Wheel Stark 67G. He's a grandson of the outstanding black Sire Brooking Banknote. Reports on Stark's first progeny in Canada have been very positive and we will welcome his first calves here Spring. *All embryos were collected by Dr Peter Atkinson and stored with same at The Repro Group, Allora, Qld. All embryos are A Grade embryos and are sold on a per embryo basis.

BLACK WHEEL JESTRESS 1Y (BLACK)
RED WHEEL N DEAL 143Y
Dam: RED WHEEL ROSE 66C CANF1850039
RED WHEEL ROSE 52Y

Comments: 10 units of Red Wheel Stark 67G stored at Farmers Breeding Supplies Qld (sold on a per straw basis). Red Wheel Stark is a new outcross Sire at GK incorporating the Brooking Bank Note bull into the Red Gene Pool. Stark started out as the high selling bull as a yearling in Wheeler Stock Farms 2020 Bull Sale to Six Mile Ranch. Stark has proven to keep birth weights moderate, without sacrificing performance, muscle shape or fleshing ability. He has consistently stamped his progeny in Canada with his easy fleshing ability and very docile nature. We look forward to his first progeny arriving in Australia this Spring.

Purchaser:.....Price $:.....

29 Red Wheel Stark 67G (AMF) (MAF) (NHF) (OSF) CANM2104790

A/c GK Livestock

Born: 31/01/2004 Herd Ident: CANM1237972

RED HR RAMBO ET 91K
Sire: RED COMPASS MULBERRY 449M CANM1128419
RED BRYLOR MISS ROC 20H
RED SILVERIAS REDFORD (OSF)
Dam: RED DUS FAYETTE 8G CANF949458
RED MC DOUGALL FAYETTE 59A

Comments: 6 units of Red Fine Line Mulberry 26P stored at Holbrook Breeders NSW (sold on a per straw basis). This will most likely be the last year we will offer Mulberry packages for sale as we are very low on stock on this breed legend. Still a triple trait leader in Australia for growth, Mulberry is renowned world wide for his ability to produce perfect uddered, easy doing daughters and sons that have plenty of performance, softness and muscle shape. Semen is stored at Holbrook Breeders.

Dam: SRA PAINTBUCKET (MAF) (OSF) USAF1588546
SRA PICABO PROMISE (OSF)

Comments: 10 units of KJHT Power Take Off stored at Holbrook Breeders (sold on a per straw basis). PTO was the 2019 National Grand Champion Red Angus bull at the Fort Worth Stock Show, he has a lot of power and performance but gets out there and moves. We love the square hip and extra capacity he has added to his progeny. He is breeding well for us here in Australia with his sons the first to sell out of the paddock and his first daughters calving unassisted with beautiful udders. At the 2022 Sydney Royal Show, the first PTO daughter shown won junior and grand champion female, and best Red Angus exhibit, and his first son shown won reserve junior champion bull. Limited semen still available.

HOW TO REGISTER with

ELITE LIVESTOCK AUCTIONS

Simply go to **www.elitelivestockauctions.com.au** using your desktop, laptop, iPad, IPhone or android device.

Click on the **"Sign Up"** page / link

Create a bidding profile using the bidder registration page.
(You can either register as a livestock agent, company or private buyer)

Agree to the Elite Livestock Auctions Terms & Conditions and the Selling Agents Sale Terms & Conditions as printed in the official Sale Catalogue

Click "Register"

You will then be notified by email that an account has been created.

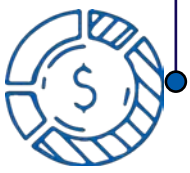
Once an account has been created you are all **"Set to Bid"**

Each Auction can then be viewed by clicking **"Live Auction"** logo on the Elite Livestock Auctions website.

Once you receive email notification that your account has been created please go to the sale you wish to bid at and click **"Request to Bid"**

The sale will then approve your application to bid and on the sale catalogue you will see "✓**Bid Request Approved"**

On Sale day simply login, click "Enter Auction" on the catalogue page and you can start bidding.
(There is no need for software download)



At the completion of the auction, invoicing will be carried out as per your registration details by the Selling Agents.
